“ Gary and I spent many years working together on projects at Ford. We went through many changes in clutch engineering together and through all those years we had much respect for each other and could ask each other anything. I still remember Gary with much professional respect. I am sorry to see him go at this age, and I am sorry for his family's loss.

“ Gary was my dad's best friend for many, many years. I have fond memories of growing up around he and Martha, and being at his house up the street from our own, with my dad while they listened to and played music together. Gary always made me feel special, like family. He will be deeply missed by my family. Rest in peace.

At the Grand Canyon, August, 1980. Gary and I were on assignment at the Ford Desert Proving Ground. Gary, myself and a coworker went to the Grand Canyon for the weekend. One of the many, many great times we shared together.

“ We met Gary while when we were outside with our dogs. He was a wonderful man. We enjoyed talking with him immensely. He was a very smart, sincere, funny, and down-to-earth man. We always received a warm smile and friendly wave when passing by, which will be missed very much. We give our deepest sympathies to our dear friend, Martha, and to his family, as well.

“ I have known Gary since he joined Ford and he had become my best friend. We worked together on Ford projects off and on for about 25 years and he always gave everything he had to solve a problem, reduce a cost, meet a deadline and challenge a supplier. His intensity was a joy to be around. He took that same approach with his personal projects from assembling the "world's best stereo system" to reconditioning the rental homes he and Martha managed. He left his mark and he will be sorely missed. Our sympathies to Gary's family and close friends.

“ Gary and I went to college at WMU together, then we worked at Ford together, then we worked together at GETRAG. I have enjoyed every step with him, especially playing softball with him at Ford. My prayers are with Gary and his family.

“ *I enjoyed working with Gary on many transmission test projects back in Livonia, Mi., Ford Motor Co. Gary was a very dedicated engineer and you could tell he loved his work by the extra effort he put forth to make sure all the bases were covered. We also had many conversations dealing with Hi-Fi, as we were both very fond of music and audio. He was far too young to have left this world. My condolences go out to his family.*
